# HAIR AND BEAUTY PRODUCT DISTRIBUTOR WAREHOUSE COUNT

## Case Study: Warehouse – Hair and Beauty Product Distributor

A specialist in the international distribution of hair and beauty products sector, to more than 200 hair and beauty companies aimed at hairdressing and beauty professionals in Belgium, France, Germany, Spain and the Netherlands.

### REQUIREMENT

The hair and beauty product distributor wanted to confirm that the stock information in the central warehouse was accurate and reliable, so required RGIS to provide the following:

- A **wall-to-wall count** within the central warehouse
- Reports to be provided in **real-time**
- **Variance checks** to be completed
- Scan both **product barcode** and **customer location barcode** shown on shelving within the warehouse
- Warehouse count to be **completed within one day**

### SOLUTION

The hair and beauty product distributor partnered with RGIS to complete the **wall-to-wall central warehouse count project** and provided the following:

- Scheduled a **team of eight experienced RGIS auditors** familiar with warehouse environments
- Count was completed in five hours
- **Variance reporting** was completed
- An **output file** showing quantities and associated customer location

### RESULTS

The hair and beauty product distributor found that by outsourcing the **wall-to-wall central warehouse count project** to RGIS, the following was achieved:

- **100,000** units accurately counted
- **Accuracy checked** by customer in real-time
- Count completed **within the time frame** given of one day
- **Verified** exactly what stock was held and its location within the central warehouse

By partnering with RGIS, the hair and beauty product distributor found that the **stock data received verified exactly what stock was held and its location** within the central warehouse
