FINANCED VEHICLE AUDIT AT CAR DEALERSHIPS

Case Study: Vehicle Audit – Car Manufacturer

An American global car manufacturer sells automobiles and commercial vehicles under the major car brand. A car manufacturer in Argentina is a subsidiary of the major car brand, and required the support of RGIS.

REQUIREMENT

The car manufacturer's credit department wanted to have a vehicle audit of financed vehicles in dealerships, so required RGIS to provide the following:

- **Coverage capacity for 24 cities**
- **Reporting** on total quantities and locations of vehicles by dealership
- **Inspect** all supporting documentation for the vehicle
- **Check** the condition of each vehicle

SOLUTION

The car manufacturer partnered with RGIS to complete the **audit of financed vehicles in dealerships**, and provided the following:

- Scheduled a team of **15 experienced RGIS auditors**
- **Allocated teams by locality** to cover all dealerships
- **Checked vehicles** were in the correct place
- **Reviewed both physical vehicle and the documentation**
- RGIS project manager developed a **bespoke executive brief** containing all the vehicle audit information

RESULTS

The car manufacturer found by outsourcing the **audit of financed vehicles in dealerships** to RGIS, the following results were achieved:

- **Variance of vehicle information** could be updated
- The customer was now aware that the vehicles were in the **correct place and in good condition** to be able to be sold

By partnering with RGIS,
the car manufacturer
had **up to date**
accurate information
of financed vehicles in
all dealerships, including
location and condition
