COUNT, PACK AND TRANSPORT STOCK TO NEW LOCATION

Case Study: Logistic Centres – Logistics Company

An ecommerce company that sold items online and through mailing houses went into administration. The company had previously sold cosmetics and industrial goods, distributing to Germany, Austria, Italy, Spain, Poland and France.

REQUIREMENT

A logistics company needed a solution to **count, pack and transport stock** after a bailiff seizure of stock.

The logistics company required RGIS to provide the following:

- **Count pallets** of goods
- **Count all seized stock** including those on high racks
- **Report on expiration dates**
- Single items to be **palletised**
- **Prepare stock** for transportation
- **Transport stock** to new location
- Adhere to all **health and safety procedures** within the logistic centre warehouse

SOLUTION

The logistics company partnered with RGIS to complete the **stock relocation project**, and RGIS provided the following:

- Scheduled a team of **15 experienced RGIS auditors**
- The count took place over **20 days**
- Single items were added to pallets for transportation
- **Identified products that were defective, expired or with an unknown code**, and were stored in special areas, described accordingly and scanned
- After counting and the pallet had a list of stock attached, they were then **securely stretch-wrapped**
- Pallets were then **prepared for transport**

RESULTS

The logistics company found by outsourcing the **stock relocation project** to RGIS, the following results were achieved:

- All of the seized stock was **accurately counted**
- The stock was **prepared for transportation**
- All seized stock was **successfully transported to the new location**

By partnering with RGIS, the logistics company found that all the bailiff seized stock was **accurately counted, packed and transported to the new location successfully**
