COMPONENTS AND SPARE PARTS WAREHOUSE COUNTS

Case Study: Warehouse Count – Security Solutions Company

A Mexican company with an international presence that integrates technologies, telecommunications and security systems with 25 years of experience, required the support of RGIS. Providing both residential and business security technology solutions.

REQUIREMENT

The security solutions company needed a solution to **count components and spare parts within two warehouses**, so required RGIS to provide the following:

- To **count spare parts and components** in two separate warehouses
- **Accuracy and efficiency** to be priority
- **Not to impact on any of the daily operations** within either warehouse

SOLUTION

The security solutions company partnered with RGIS to complete the **two warehouse stock count project**, and RGIS provided the following:

- Scheduled a team of **26 experienced RGIS auditors** for two days
 - 14 auditors for the Mexico City warehouse
 - 12 auditors for the Guanajuato warehouse
- **Prepared each warehouse** prior to the warehouse counts
- **Counted all items** in each warehouse
- Checks were completed on **any variances** in both warehouses

RESULTS

The security solutions company found by outsourcing the **two warehouse stock count project** to RGIS, the following results were achieved:

- Mexico City warehouse: **counted and verified 2,136,465** pieces of stock
- Guanajuato warehouse: **counted and verified 854,586** pieces of stock
- **Reporting** sent to the customer in the format requested for both warehouses
- Customer was very happy with the **efficiency and accuracy** of both counts

By partnering with RGIS, the security solutions company found that a total of **2,991,051 pieces were counted and verified with both efficiency and accuracy**
