MULTIPLE DISTRIBUTION CENTRE INVENTORY COUNTS MANAGED BY THIRD PARTIES

Case Study: Logistic Centres – Consumer Goods Company

A leading global consumer goods company with a strong portfolio of well-known brands required the support of RGIS. The company is committed to enhancing the lives of consumers around the world with planet friendly, innovative and attractive products that create moments of joy and provide peace of mind. The company have more than 1.1 billion consumers and 30,000 employees globally.

REQUIREMENT

The consumer goods company needed a solution to **count inventory in multiple distribution centres** managed by different logistic companies, so required RGIS to provide the following:

- **Three separate logistic company distribution centres** to be counted
- All counts to be **validated** by internal warehouse staff
- **Accuracy** to be a priority

SOLUTION

The consumer goods company partnered with RGIS to complete the **multiple logistic distribution centre count project**, and RGIS provided the following:

Distribution Centre One:

- In the biggest distribution centre, RGIS assigned a team of **48 experienced auditors**
- Divided the project into **three shifts over four days**
- The following two days, in view of the counting progress, the RGIS team was reduced from 48 to **25 experienced auditors**
- The last day it was reduced further to **10 experienced auditors**

Distribution Centre Two:

- Counting was completed by a team of **five RGIS experienced auditors in one day**

Distribution Centre Three:

- Counting was completed by a team of **nine RGIS experienced auditors in one day**

RESULTS

By outsourcing the **multiple logistic distribution centre count project** to RGIS, the following results were achieved:

- All three separate logistic company distribution centres, holding the customers stock, were **successfully counted**
- Both the customer and the logistics companies were pleased with the **accuracy of the results**

By partnering with RGIS, the consumer goods company found all the **stock held in the three different distribution centres was counted quickly, with high accuracy results**
