# INVENTORY OF LOGISTIC WAREHOUSE TO UPDATE STOCK LEVELS

## Case Study: Warehouse – Beauty Product Retailer

A French multinational retailer of personal care and beauty products required the support of RGIS. The retailer features nearly 3,000 brands, along with its own private label. The retailer offers beauty products including cosmetics, skincare, body, fragrance, nail colour, beauty tools, body lotions and haircare. The beauty retailer operates approximately 1,900 stores in 29 countries worldwide, with 170+ stores in Italy.

### REQUIREMENT

The beauty retailer needed to perform an **inventory of the main logistic warehouse** to **update current stock quantities** to compare to the external logistic company's stock numbers.

The customer required RGIS to provide the following:

- Complete a **full stock count** of the logistic warehouse
- **No disruption** to business
- **Accurate reporting** to be provided for comparison purposes

### SOLUTION

The beauty retailer partnered with RGIS to complete the **full logistics warehouse inventory project**, and RGIS provided the following:

- Scheduled a team of **57 experienced RGIS auditors**
- Organised **two 8-hour shifts** to complete the count during **five consecutive week days**
- Dedicated teams were allocated for **picking areas** and **higher stock areas**

### RESULTS

The beauty retailer found by outsourcing the **full logistics warehouse inventory project** to RGIS, the following results were achieved:

- Accurately counted **4,131,486 items in 32,168 locations**
- The customer had the opportunity to show their external logistic partner how **inaccurate the starting stock on hand** had been
- All stock on hand quantities were **accurately updated on the customer's system**

By partnering with RGIS, the beauty retailer had **all stock accurately counted** within the warehouse and are now confident with **up-to-date stock on hand records**
