

FULL INVENTORY OF MAIN LOGISTIC WAREHOUSE FOR GROCERY DISTRIBUTOR

Case Study: Warehouse – Grocery Distributor

A grocery distributor needed support from RGIS to perform a **full inventory of the main logistic warehouse** to update total stock levels

FULL INVENTORY OF MAIN LOGISTIC WAREHOUSE FOR GROCERY DISTRIBUTOR

Case Study: Warehouse – Grocery Distributor

An operating company has been active in the grocery distribution sector since 1950. With various brands it has a widespread presence in central and southern Italy with more than 100 points of sale.

REQUIREMENT

A grocery distributor needed to perform an **inventory of the main logistic warehouse to update current stock quantities** before the start of the inventory campaign.

The customer required RGIS to provide the following:

- Complete a **full stock count** of the logistic warehouse
- **No disruption** to business
- **Accurate and reliable** data reporting

SOLUTION

The grocery distributor partnered with RGIS to complete the **logistics warehouse inventory project**, and RGIS provided the following:

- Scheduled a team of **20 experienced RGIS auditors**
- RGIS was responsible for counting all goods, applying **different counting methods** for each type of product
- **Counted and identified item locations** within the warehouse including those held at a high level within the warehouse

RESULTS

The grocery distributor found by outsourcing the **logistics warehouse inventory project** to RGIS, the following results were achieved:

- Accurately counted over **1,500,000 pieces**
- The customer was very satisfied with the **accuracy of the counts**, and all data was updated on the customer's system
- The customer was able to **save time and money** by outsourcing the inventory activities to RGIS rather than using an internal team

By partnering with RGIS, the grocery distributor had all **stock accurately counted** within the warehouse and are now confident with **up-to-date stock on hand records**
